Lacey TRAHAN-MOATE and Patty WHITNEY gave an awesome presentation on DNA's role in genealogy. DNA is found in most cells. DNA carries instructions: such as traits in eye color, hair, skin color, height, health, etc. There is not enough room in just one paragraph to tell you all about DNA. Lacey & Patty gave a very good presentation. Let's just say if you were not able to make the meeting you missed out on some very useful information. Thank you, Lacey & Patty.

### **GUEST SPEAKER**

Our guest speaker will be Kirby VERRET. He will be speaking on the United Houma Nation History & Future of the Houmas Indians.
